Employment & voluntary work

Vocational

- 2022– **Postdoctoral Fellow**, *Center for Theoretical Physics, Polish Academy of Sciences*, Warsaw, Poland.
- 2022 **PDRA (short-term)**, *Astrophysics Research Institute, Liverpool John Moores University*, Liverpool, UK.
- 2019–2021 **Postdoctoral researcher**, *Institut de Physique des Deux Infinis*, Lyon, France.
- 2014–2015 **Graduate Trading Platform Engineer**, *Fidessa*, Woking, UK.

Volunteering

- 2014–2020 **Founding trustee & Treasurer**, *UniBrass Foundation (charity number: 1159359)*, UK.

Education

- 2015–2019 **PhD**, *Institute for Computational Cosmology*, Durham, UK.
Probing the nature of dark matter with small-scale cosmology
Supervisors: Prof. Adrian Jenkins and Prof. Carlos Frenk
- 2010–2014 **BSc MPhys**, *University of Warwick*, Coventry, UK, *1st Class (Hons)*.
Masters project: *Determining the fundamental properties of Higgs candidates at the LHC*

Awards and scholarships

- 2019 **ICC Research Scholarship**, *Institute for Computational Cosmology*, Durham, UK.
- 2015–2019 **STFC Postgraduate Studentship**, *Institute for Computational Cosmology*, Durham, UK.

Conference contributions

Contributed talks

- July 2022 **VIRGO Consortium meeting**, MPA Garching, Munich, Germany.
Globular clusters as tracers of galaxy mergers
- July 2022 **CLUES Collaboration meeting (online)**, Madrid, Spain.
The undiscovered ultra-diffuse galaxies of the Local Group
- Oct 2021 **Świeradów-Zdrój cosmology workshop**, Świeradów-Zdrój, Poland.
Hermeian haloes: Field haloes that interacted with the Milky Way and M31
- July 2021 **CLUES Collaboration meeting (online)**, AIP Potsdam, Germany.
Hermeian dark matter haloes of the Local Group
- July 2020 **EAS (online)**, Leiden, Netherlands.
Constraining the properties of WDM using the satellite galaxies of the Milky Way
- Jan 2020 **VIRGO Consortium meeting**, Durham, UK.
Constraining the properties of WDM using the satellite galaxies of the Milky Way
- Sep 2019 **CLUES Collaboration meeting**, IN2P3, Lyon, France.
Constraints on thermal relic WDM from satellites of the Local Group
- July 2019 **Small Galaxies, Cosmic Questions**, Durham, UK.
Constraints on the mass of the thermal relic warm dark matter particle
- Jan 2019 **DEX XV**, Edinburgh, UK.
Constraints on the mass of the thermal relic warm dark matter particle

- Dec 2018 **VIRGO Consortium meeting**, Leiden, Netherlands.
Constraints on the mass of the thermal relic warm dark matter particle
- Aug 2018 **XXX IAU General Assembly**, Vienna, Austria.
Constraining the mass of the WDM particle using estimates of the total satellite population of the Milky Way
- Jan 2018 **DEX XIV**, Durham, UK.
The total satellite population of the Milky Way
- Dec 2017 **VIRGO Consortium meeting**, MPA Garching, Munich, Germany.
The total satellite population of the Milky Way
- July 2017 **National Astronomy Meeting**, Hull, UK.
The total satellite population of the Milky Way
- Dec 2016 **VIRGO Consortium meeting**, Durham, UK.
MW satellite galaxies: how many could there be?

Posters

- July 2022 **EAS Meeting**, Valencia, Spain.
The undiscovered ultra-diffuse galaxies of the Local Group
- June 2019 **EWASS**, Lyon, France.
Constraints on the mass of the thermal relic warm dark matter particle
- Aug 2018 **XXX IAU General Assembly**, Vienna, Austria.
Constraining the mass of the WDM particle using estimates of the total satellite population of the Milky Way

Invited talks and seminars

- Nov 2021 **Lunch seminar**, DTU Space, Copenhagen, Denmark.
Hermeian haloes: Field haloes that interacted with the Milky Way and M31
- June 2021 **Small-scale structure seminar (online)**, Durham, UK.
Hermeian dark matter haloes of the Local Group
- May 2021 **Stars, galaxies and cosmology café club (online)**, LAM Marseilles, France.
Hermeian dark matter haloes of the Local Group
- Nov 2020 **Local Group (online)**, Durham, UK.
Constraining the properties of WDM using the satellite galaxies of the Milky Way

Teaching/supervising experience

- Sep 2022 Delivered a workshop entitled 'Working with simulation outputs in PYTHON' to postgraduate students
- 2017–2019 Co-supervising two 4th year undergraduate student Master's theses

Professional service

Peer review

- 2022– The Astrophysical Journal (ApJ)
- 2021– Journal of Cosmology and Astroparticle Physics

Institution

- 2021 **CLUES discussion meeting**, *Convener*, IP2I Lyon, France.
- 2016–2017 **Postgraduate Journal Club**, *Co-convener*, Durham, UK.

Conferences and meetings

- 2018–2019 **Small Galaxies, Cosmic Questions LOC**, *Member*, Durham, UK.

Memberships

- Oct 2019– Member CLUES Collaboration
- May 2017– Fellow of the Royal Astronomical Society, UK
- Oct 2015– Member Virgo Consortium

Outreach

Events

- Oct 2018 **Celebrate Science**, Durham, UK.
Galaxy Makers
- Apr 2018 **Schools Science Festival**, Durham, UK.
Galaxy Makers
- Oct 2017 **Celebrate Science**, Durham, UK.
Galaxy Makers
- Apr 2017 **Schools Science Festival**, Durham, UK.
Galaxy Makers
- Jul 2016 **Royal Society Summer Science Exhibition**, London, UK.
Galaxy Makers

Activity development

- 2015–2016 **Galaxy Makers**, Durham, UK.
Developed design ideas and ran the constituent *EAGLE* volumes that were visualised in the final exhibit.

Computing

- Languages Python, HPC, \LaTeX , TCL, SQL, Microsoft Office suite
- Simulations AHF, SubFind, Gadget, AREPO

Publications

- 2022 **Oliver Newton**, Noam I Libeskind, Alexander Knebe, et al., Hermeian haloes: Field haloes that interacted with both the Milky Way and M31, *MNRAS*, 514(3):3612–3625, August 2022, doi: [10.1093/mnras/stac1316](https://doi.org/10.1093/mnras/stac1316)
